

**FAIR
MEDICINE**

Round-the-clock, fast and reliable online service for medical centres

Remote interpretation of CT, MRI and X-ray examinations 24/7

Speed, quality and number of descriptions

We keep your money and nerves safe

Increasing the clinic's income

Qualitative descriptions from the first day of work (we have > 75 radiologists)

Savings on the wage fund (payment for actual number of descriptions)

Portal for patient with access to scans and reports

Description of CT, MRI, X-ray in 1 hour in 24/7 mode

No need to look for and supervise the work of radiologists

Interface for referring organisations and phisitinas

You can increase your hours of patient admissions (we read images around the clock and on weekends)

24-hour support service

Increase in types of examinations, average cheque and repeat visits

You get extra profits through increased average sales price, extended reception hours and repeat visits.

We take on all organizational matters and give you a convenient and reliable service.

LEGAL COMPLIANCE

Compliance with legislation on personal data protection

Image description service as part of a medical licence

Work under the contract with prescribed obligations

SIMPLICITY AND CONVENIENCE

We connect to any equipment.

We organize a connection without involving an IT specialist on your part in 30 minutes.

The 24-hour support service will help and answer your question in less than 5 minutes.

HIGH QUALITY

Our doctors are selected from 4 stages, the best 3% are offered a partnership.

The reports are subjected to internal quality audits on 28 parameters.

Doctors are divided into expert groups; narrow specialisation increases the quality of descriptions.

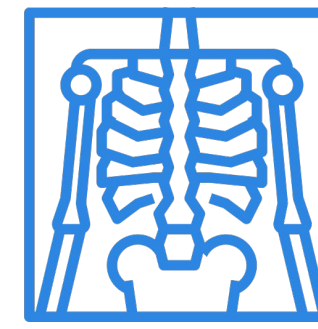

- 1 Integration with any radiological equipment
- 2 Automatic anonymisation of images
- 3 5 options for transferring images to the system
- 4 Quick connection of the platform - from 10 minutes
- 5 Using the platform without purchasing any programs or additional equipment
